SUNDARESH V P

Phone: +91 9384442459 **Email:** sundareshvp36@gmail.com **Location:** Madurai / Chennai, Tamil Nadu, India

OBJECTIVE

Self-driven professional with strong communication and presentation skills, backed by 1 year of total experience. Passionate about interacting with people, coupled with a strong desire to be a collaborative team player and dedicated to finding my own niche across all core operational and technical processes.

PROFESSIONAL EXPERIENCE

LG Electronics India Private Limited **Feb 2026 – May 2026**

Assistant Team Leader

- Assisted the Team Leader in driving daily operational activities, ensuring smooth workflows and task execution.
- Coordinated task allocation among engineers, following up systematically to track project progress.
- Monitored customer issues and proactively guided the team to resolve multi-tiered technical and functional queries.
- Bridged communications between team members and senior management to ensure alignment on project updates and goals.
- Maintained strict standards for quality management and ensured timely completion of all deliverables.
- Gained valuable hands-on expertise in technical project coordination and Agile software development lifecycles.

Daikin Airconditioning India Private Limited **Dec 2024 – Nov 2025**

Service Apprentice

- Managed daily service call flows and provided seamless end-to-end support to Authorized Service Providers (ASPs).
- Tracked pending replacement cases weekly via the Chennai Spares team to resolve backlog issues and optimize part turnaround times.
- Conducted structural field audits by visiting dealer, distributor, and customer sites to analyze installation quality and handle critical defects.
- Audited e-commerce service requests (Amazon, Flipkart) and verified service center job sheets to maintain organizational quality benchmarks.
- Liaised with the Head Office Spares Coordinator to secure component alternatives for complex, long-standing client cases.
- Organized and conducted monthly Field Service Management (FSM) training programs to upscale service technicians.

TECHNICAL PROJECTS

Wipro (Western India Palm Refined Oils Limited) — Salesforce Developer / Admin **Mar 2024 – Oct 2024**

Project Title: Build a Bear Tracking App with Lightning Web Components (LWC)

- Analyzed end-to-end customer requirements captured via Polarion software to build core application architectures.
- Collaborated closely with both the Core Systems team and Development units to design realistic testing and implementation plans.
- Leveraged Salesforce Admin frameworks alongside modern Lightning Web Components to enhance user interfaces and track entity lifecycles.
